Census shares explain petition maps better than the vote

Left: how much of each petition's seat map is explained. Right: change in topic signing per standard deviation (England and Wales)

Tighter, more open and rejoin groups are exploratory (added after the planned models).

Data: UK Parliament petitions (Open Government Licence v3.0), 734 petitions with about 3,000+ signatures, 2024 to 2026; hexes: Open Innovations
